McLean, Virginia 22102
January 17, 1984

The Honorable
John W. Warner
United States Senate
Washington, D. C. 20510

My dear Senator Warner:

The Transportation Committee and Board of Directors of the McLean Citizens Association are very much distressed that the Central Intelligence Agency's Headquarters Expansion Phase I construction plans at Langley have been approved by the National Capital Planning Commission before workable off-site road improvements have been agreed upon.

We had understood that, to use Representative Wolf's phrase, "nothing would be set in concrete," until the extremely significant problem of access to the site for the 3,000 additional employees had been dealt with in a way that would minimize impacts on the surrounding residential areas.

McLean families living close to the Georgetown Pike and Dolley Madison Boulevard entrances to the site are understandably concerned that a number of options may have been foreclosed by the Commission's action.

We would very much appreciate your help in holding the Agency to its commitments to the surrounding community.

Sincerely yours,

Theodore L. Gray
President
McLean Citizens Association
